

Overview of changes to the Programme Manual V.12

Location of change	Introduced changes	Justification of changes
Programme Manual Chapter IV point 1 P. 58	following information was added: - NB: The cost paid after the end date of the reporting period is not eligible in the given report even if the activity is finalised. Such cost can be claimed in the next report or in other forthcoming reports. The footnote was added: - In line with the information in Chapter IV point 3.8, costs reported in the final report that are related to activities carried out in the implementation phase but paid after the project's end date are eligible in justified cases.	To make it clear that costs paid after the end date of the reporting period are not eligible in the given report even if the activity is finalised. E.g. The end of the reporting period is 31 December and staff costs for December are paid in January, then these costs are eligible only in the next report. The footnote informs about exceptions from this rule in the final report.
Programme Manual Chapter IV point 3.8 P. 76	Correction of typing mistake was made: For the projects approved in the 1st call for proposals this is a closed catalogue of closing costs declared on the basis of real costs.	A typographical error is corrected in the word "basis" (from "basic").
