

Verse 1 🎵

We sail the South Baltic shore, with maps and dreams in hand,
Projects set to grow and glow across this shared land.
With partners side by side, we stitch the future bright —
Learning, linking, lifting up from morning 'til the night.

Refrain (everyone sings!) 🎵

Follow the South Baltic star — we're steering toward the light!
Capitalise the journey — make our good work take flight!
One compass, many hands, we'll shine both near and far:
Sing it loud — the South Baltic Star!

Verse 2 🎵

We name the lessons learned, we pack the stories well,
Turn small sparks into bonfires so the whole region can tell.
Visibility and value, networks strong and new,
Pitch a brave tomorrow from the things that we pursue.

Refrain (everyone sings!) 🎵

Follow the South Baltic star — we're steering toward
the light!
Capitalise the journey — make our good work take flight!
One compass, many hands, we'll shine both near and far:
Sing it loud — the South Baltic Star!

Foresight, friends, and funding — voilà, a clever brew!
A little bit of hustle and a lot of follow-through.
If plans were ships, then capitalisation is our dock —
Tie up, share tales, and then set sail around the clock!

Refrain (everyone sings!) 🎵

Follow the South Baltic star — we're steering toward
the light!
Capitalise the journey — make our good work take flight!
One compass, many hands, we'll shine both near and far:
Sing it loud — the South Baltic Star!

Keep the compass close — keep the star in sight,
South Baltic strong — together, we ignite! ✨🌟
